

STEEL TUBE

A Division of Steel Slides, Inc.

Cut-To-Length Tubing Is Our Specialty!

We run three complete production lines, all M2 Yoder tube mills. All do High Frequency Welding.

Our primary product is ASTM A513 carbon steel tubing, Type 1 and Type 2, in squares or rounds. We have the capability to produce tubing in sizes ranging from 1/2" to 2-1/2" square.

We use only the finest carbon steel, with mill certifications. Gauge wall thicknesses ranging from 20 gauge up to 13 gauge are available on request.

SQUARE TUBING

<u>SIZE</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>
.500"	---	---	16	18	20
.750"	---	14	16	18	20
.875"	13	14	16	18	20
1.0"	13	14	16	18	20
1.5"	13	14	16	18	20

264 Commerce Blvd.
Statesville, NC 28625

704-871-1332

Carbon steel tubing gets its exceptional strength from its shape, not its weight or width.

The exacting tolerances and precise milling standards of steel tubing make it ideal for structural, mechanical and manufacturing applications, where dependable strength and ease of use is essential, and a minimum of additional processing is desired.

ROUND TUBING

<u>O.D.</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>	<u>Ga.</u>
.875"	13	14	16	18	20
1.0"	13	14	16	18	20
1-1/4"	13	14	16	18	20
1-5/16"	13	14	16	18	20
1.900"	13	14	16	18	20
1" x 2"	X	14	16	18	20

All our tooling dies are produced in-house via wire EDM on a Sodick A500 WT with an MK21 control.

We are rarely 'down' waiting for repairs or new dies. Our fully equipped machine shop and skilled operators let us operate at peak productivity year round.

Other Sizes Coming Soon:

.750" Round
1.125" Round
1.5" X .5" Rectangular

Ideally located at the crossroads of the major rail and highway arteries for the entire Southeast. Delivery is two to three weeks from receipt of your PO.

If steel tubing is all you're after, any tubing supplier will do. If what you need is a flexible, dependable, and professional partner to help you streamline and support your manufacturing – then we are your ticket.
